

BIGS Chemistry Lecture

Tuesday, 14th March 2023, 16:00 s.t., SR 1.104

(link see BIGS Chemistry homepage: www.thch.uni-bonn.de/bigs-chemie/)

Dr. Christoph Weckbecker

Head of Networks, Creavis (Evonik)

Sustainability & Innovation at Evonik

Abstract

Turning inventions into business: if we talk about innovation, we create the link between science and economy. For a long time, this was the narrative of the chemical industry.

Now, we realize that we have to take Nature into account and by this, research in the chemical industry faces a significant change. How sustainability influences the innovation activities in the chemical industry is the focus of the presentation.

Guests are cordially welcome
